

INVESTMENT BREAKDOWN · R360-JRK-BUD-001 · TIER 2 STANDARD

\$62,000 — Line by Line

LEGAL \$10,500	BRAND \$10,000	PRODUCTION \$12,500	TRANSPORT \$4,500	MARKETING \$7,000
OPERATIONS \$4,500	TECHNOLOGY \$1,800	BANKING \$2,000	ADVISORY \$7,500	CONTINGENCY \$1,700

01 — Legal & Regulatory	Phase 0 · M0-M2	\$10,500
File Day 1. The MoPH 2-4 month processing clock starts on submission — not on decision day. Trademark must be filed before any account sees the STRIKE name.		
SARL registration — notary + Commercial Register + mandatory corporate lawyer All-in per Mattar Law / PwC Lebanon standard. Articles, CR filing, mandatory attorney retainer included.		\$3,500
Tax ID + NSSF registration + business licensing		\$400
MoPH food product registration — 2 SKUs 2-4 month processing each. Both SKUs filed simultaneously from Day 1. Clock must start immediately.		\$2,000
Lab testing — nutritional panel + microbiology, 2 SKUs × 2 rounds Round 1: MoPH submission file. Round 2: batch QC on first production run. CCIAS ISO 17025 accredited.		\$1,200
Halal certification — Dar Al-Fatwa Lebanon, full scope Lebanon-only. 3-6 week timeline. Unlocks all gym, pharmacy, modern trade, and GCC export channels.		\$800
Trademark — Class 29 (food products) + Class 35 (retail services) Class 35 protects the commercial channel, not just the product. Required before any GCC expansion.		\$1,200
GS1 Lebanon — 2 barcodes + annual membership		\$400
IP lawyer fees — filing + 6-month correspondence		\$600
Food regulatory consultant — MoPH submission support Navigates informal MoPH process. \$400 reduces rejection risk on a \$2,000 submission.		\$400

02 — Brand & Design	Phase 0 · M0–M2	\$10,000
Packaging is the product's first commercial act. STRIKE competes against Jack Link's (\$5.62) on the same gym shelf. The R360-JRK-006 brand brief is complete — this is execution cost, not planning cost.		
Full brand identity system — wordmark, symbol, palette, typography, brand guidelines R360-JRK-006 brief ready for designer. Trilingual system: Arabic / English / French.		\$4,000
Packaging design — 2 SKUs, 2 sizes each (40g single-serve + 120g multi-serve)		\$2,500
First packaging print run — 2 SKUs (matte laminate + UV spot varnish) Minimum viable quantity. Unit cost falls 40–60% at 10× volume.		\$1,800
Product & lifestyle photography — 2 shoot sessions Shoot 1: pure product on black background. Shoot 2: gym lifestyle / athlete context.		\$1,000
Label compliance design — trilingual AR/EN/FR MoPH layout Nutritional panel, allergen declaration, Halal mark, lot number, manufacturer address.		\$500
Printed brand collateral — trade folders, letterhead, envelope system		\$200

03 — Production & Supply	Phase 1 · M1–M4	\$12,500
At \$1.20 COGS and \$4.50 RRP, every gym-wholesale unit returns \$1.95 gross profit. First batch is simultaneously the revenue engine and the proof-of-product for every account conversation.		
First production batch — 2 SKUs (40g + 120g), 90-day stock Lebanese BBQ flavor profile: Aleppo pepper, sumac, pomegranate, cedar smoke. Zero added sugar.		\$9,000
Packaging material procurement — barrier pouches + Lebanon import duties Lebanon–Turkey FTA unratified → MFN tariff + 11% VAT on CIF value applies to imported pouches.		\$1,500
QC setup — sampling kit, documentation system, batch SOPs		\$400
Per-batch microbiology testing × 2 rounds (CCIAS, ISO 17025) Mandatory each production run. Required for Halal integrity documentation.		\$300
Warehousing — 6 months, ambient food-safe storage No cold chain. Barrier packaging + ambient temp/humidity monitoring sufficient for shelf stability.		\$1,000
Storage shelving + ambient temperature/humidity monitoring equipment		\$300

04 — Transportation & Logistics	Phase 1–2 · M1–M6	\$4,500
The team personally visits and delivers to every account bi-weekly. 60–80 accounts across Beirut, Metn, Keserwan, Jounieh, and Tripoli require a dedicated vehicle. Fuel at \$1.30/L for 95-octane on a 250–350L/month route costs \$350–500/month.		
Dedicated delivery vehicle — used van lease (6 months × \$380/month) Essential for bi-weekly visits across 60–80 accounts. Relationship model, not distributor-dependent.		\$2,280
Fuel — 6 months (250–350L/month × ~\$1.30/L) Route: Beirut, Ashrafieh, Metn, Keserwan, Jounieh, Tripoli. ~\$370–500/month at Lebanese pump price.		\$2,220

05 — Non-Digital Marketing & Activation		Phase 1-2 · M2-M6	\$7,000
82.6% of MENA sports nutrition purchases are in physical stores. The trainer network — 20 ambassadors at Tier 2 — functions as a zero-fixed-salary sales force reaching 400–1,000 active gym clients.			
In-gym branded display stands — 60 accounts × \$15 STRIKE-branded unit installed by team on first delivery day. No account opens without a display.			\$900
POS countertop display hardware — premium acrylic units, 60 accounts			\$800
Shelf talkers, price cards, and brand posters			\$500
Trade presentation kits — professionally printed, 100+ copies Account-opening kit: product spec, pricing, channel terms, STRIKE brand story.			\$700
Product samples — 50+ accounts, 4–5 units each Product at COGS. Every account visit begins with product in hand. Non-negotiable.			\$900
Trainer ambassador program — 20 trainers × \$60 starter package Package: 24 units + referral cards + branded shaker. 20 trainers = 400–1,000 client reach.			\$1,200
Product sampling events — 2 CrossFit / fitness expo events Event permit, sampling table, branded tablecloth. Maximum word-of-mouth ROI.			\$700
Trade show / fitness expo participation — 1 event			\$400
B2B first-meeting gifting — branded product boxes Left with pharmacy / modern trade buyers. \$5–8 cost. Impression worth \$500–5,000 in listing value.			\$300
Business cards + premium stationery			\$250
Branded apparel — sales team, 5 sets (shirt + cap)			\$350
06 — Operational Overhead		Phase 0-2 · M0-M6	\$4,500
Running a food startup in Lebanon means generator dependency (3–6 hrs/day grid supply), workspace for a 3–4 person team, mandatory product liability insurance for retail placement, and communication costs.			
Workspace / co-working — 6 months × \$250/month Regus Lebanon dedicated desk: \$209–329/month. Co-working from \$150/month.			\$1,500
Product liability insurance — food brand (12-month policy) Required before first retail placement. Covers all distribution channels.			\$800
Commercial vehicle insurance — delivery van			\$500
Generator / electricity — warehouse + office (6 months × \$90/month) Lebanon commercial rate \$0.27–0.32/kWh. Generator subscription essential for reliable ops.			\$540
Phone plans — 3 team members × 6 months × \$27/month			\$500
Internet connectivity — office + warehouse (6 months × \$60/month)			\$360
Office supplies, printing, miscellaneous stationery			\$200
Miscellaneous administrative + operational			\$100

07 — Technology & Tools		Phase 0 · Month 0	STRIKE BITES Advisory · Confidential \$1,800
Minimum viable stack for monthly P&L reporting, account management, and inventory control. Without accounting software, there is no P&L. Without inventory tracking, restock triggers are guesswork.			
Informational website — design + 12-month hosting Non-e-commerce. STRIKE brand-consistent. Credibility anchor for pharmacy and modern trade buyers.			\$600
Inventory management — Zoho Inventory or equivalent (12 months) Per-SKU stock tracking, reorder alerts, integrated with accounting.			\$400
Accounting software — Zoho Books Standard (12 months) Full invoicing, bank reconciliation, P&L. Monthly board reports generated from this system.			\$300
Mobile order management tool — field use by team			\$200
Digital asset management + cloud file storage			\$200
Basic CRM — account tracking + bi-weekly visit log (HubSpot free) 60–80 accounts require structured tracking. Visit log drives the check-in protocol.			\$100
08 — Banking & Financial Setup		Phase 0 · Month 0–1	\$2,000
Circular 158 banking controls and Lebanon's FATF grey-listing mean local banks cannot reliably process international USD transfers. An offshore USD account (Cyprus or UAE) is required for SWIFT payments to Turkish packaging suppliers.			
Offshore USD account setup — Cyprus or UAE (one-time) Required for Turkish packaging supplier, Halal auditors, any international SWIFT payment.			\$1,500
International wire transfer fees — 6 months × 2 supplier payments \$25–50/SWIFT transfer × ~6 transfers over the 6-month launch period.			\$300
Banking compliance / KYC documentation preparation			\$200
09 — Advisory & Management (Ru'ya 360°)		Phase 0–2 · M0–M6	\$7,500
Milestone-gated — each phase payment releases only upon demonstrated delivery against defined milestones. This is the operational cost of executing a 38-step launch plan: not a consulting retainer for advice.			
Management fee — Phase 0 Foundation (M0–M2) Milestone: SARL registered · Trademark filed · Brand identity approved · MoPH submitted · Supply agreement signed.			\$1,800
Management fee — Phase 1 Launch (M2–M4) Milestone: 30+ active accounts · First batch delivered · All displays installed · 20 trainers onboarded.			\$1,800
Management fee — Phase 2 Scale (M4–M6) Milestone: 60–80 accounts · Pharmacy channel entered · Monthly revenue ≥ \$9K · Second batch ordered.			\$1,400
Field logistics coordinator — part-time (6 months × \$300/month) Delivery scheduling, account stock checks, reorder processing, and CRM maintenance.			\$1,800
Client engagement expenses — travel, reporting tools, account visit costs			\$700

10 — Working Capital & Contingency

Always-On · M0-M12

\$1,700

Sale-or-return placement means cash does not return immediately. 60–80 accounts on consignment = product in market, cash not yet back. Buffer covers the 30–60 day float and absorbs MoPH fee variance and unexpected lab re-testing.

Working capital float — sale-or-return period (Month 2–4)

\$1,200

60–80 accounts × ~\$70 avg first placement = \$4,200–5,600 product at risk. Buffer covers operations.

Contingency reserve — MoPH variance, GS1 confirmation, unexpected re-testing

\$500
